R. R. SHOP MEN OUT IN BIG STRIKE

Thousands of Workers Obey
Union Heads and Quit Work
—Strike Is Nation-Wide

(By Associated Press)
Chicago, July 1—Thousands of shop men dropped their tools today to join the nation-wide strike called by the international heads of the six shop crafts unions. Early reports indicate that shop mechanics and helpers from New England to western transcontinental lines are joining in the walkout, with 50,000 reported actually quitting by noon.

At Topeka, Kansas, Gov. Allen has summoned all industrial Court Judge for a conference regarding the strike. A slight clash at Ivy City, Maryland, resulted when strikers mistook the guards for strikebreakers.

5500 Out In Louisville

Louisville, Ky., July 1—Approximately 5,500 shopmen walked out at ten o'clock this morning, answering the strike call without any sign of disorder. A yard foreman at the L. & N. shops in South Louisville, claimed that 113 men remained at work. The general expression among the strikers is that all will be over in a few days.

Officials of railroads said they were without advice regarding local strike conditions and gave out no statements.

In the K. & I. shops here it was stated it was up to superior forces to replace the men who left to keep things moving.

Representatives of the six shop crafts met this afternoon to form a local strike committee, representatives being chosen at meetings of individual bodies during the day.

Buffalo Men Walk Out

Buffalo, N. Y., July 1—Between 700 and 800 employees in the car shops, and roundhouses quit work today in response to the strike call.

1,300 Out On New Haven Road
New Haven, Conn., July 1—About 1,300 men left the work shops of the New York, New Haven and Hartford Railroad, in connection with the strike this morning.

How Wages Have Fluctuated

(By Associated Press)
Chicago, July 1—The following table shows the average hourly rates of pay for the principle classes of railway employees under the wage reduction, effective today, recently ordered by the United States Railway Labor Board. Comparison is also made with the rates paid in December 1917, when the federal government took over control of the roads; in January, 1920, under the federal administration pay increase; in May, 1920, under Labor Board's \$600,000,000 award; in July, 1921, under the board's first wage reduction; and for July 1922, the new rate.

Shop mechanics, Dec. 1917, 50.5; Jan. 1920, 72.3; May 1920, 85.3; July 1921, 77.3; July 1922, 70.3.

ONE CAPTURED, ONE ESCAPED IN STILL RAID

Dewey Parker was arrested Friday morning by J. C. Powell, city marshal of Berea, deputies Ben Davis and Rube Abner for operating a moonshine still. The still was found at the foot of Big Hill in Madison county. Parker and some one, who escaped, were operating the still at the time of the capture. Parker was released on \$1,000 bond to appear in court July 11 for trial. The bond was signed by J. W. Wither and Jeff Neely.

Officers are hunting the hills for the man who escaped. He was helping Parker operate the still when the officers arrived, but made his getaway before they could get to him.

The still was a large, complete one of copper. With the exception of the still taken about two weeks ago on the farm of Rube Smith the one taken by the Berea officers is about the best and most complete captured in this county.

DOCTORS TO MEET AT STATE UNIVERSITY

(By Associated Press)
Lexington, Ky., July 1—Members of the Kentucky Veterinary Association will hold their annual summer meeting at the College of Agriculture July 12 and 13. It has been announced by Dr. W. W. Dimock, head of the veterinary department of the Kentucky Agricultural Experiment Station.

The address of welcome on the first day will be given by Dean Thomas P. Cooper, of the College, and director of the station while the principal addresses of the day will be given by Dr. U. G. Houch, Bureau of Animal Industry, of the United States Department of Agriculture, and J. L. Hooper, head of the College dairy department. Dr. Houch will talk on activities of the Bureau while Mr. Hooper will discuss the development and care of the dairy herd. A number of other subjects of special interest to veterinarians also will be discussed on the first day of the meeting.

During the afternoon of the first day those who attend the meeting will be taken on a tour of inspection to prominent stock farms in the vicinity of this city, the Lexington Chamber of Commerce having arranged to provide transportation for the visitors.

The second day of the program will be confined largely to papers, discussions and demonstrations on abortion and sterility in all classes of livestock. Dr. F. J. Devine, Goshen, N. Y., will be the principal speaker while other important addresses will be given by E. S. Good, head of the college animal husbandry department, W. S. Anderson, a member of the department, and Dr. Dimock.

Japan Ratifies China Treaty

(By Associated Press)
Tokyo, Japan, July 1—The Privy Council today recommended the ratification of the treaties relating to China which were adopted at the Washington Arms Conference. The Prince Regent's signature and seal leaves the only formality to complete the world peace plan by Japan.

BIG WAGE SLASH IN EFFECT SATURDAY

\$135,000,000 in Wage Cuts Go
Into Effect On Railroads
Of Country Today

(By Associated Press)
Chicago, July 1—Wage slashes totalling \$135,000,000 annually go into effect on the railroads of the country today. There are approximately 1,425,000 railway workers in the service at present but probably not more than one million of these will feel the cut in their pay envelopes.

Three decisions of the United States Railway Labor Board in the last month and a half form the basis for the wage reductions. Several classes of employees, notably the engineers, firemen, conductors and trainmen, were not included in the reductions and no decision has yet been issued for one other group, the telegraphers, and the train dispatchers suffered no reductions whatever.

The railway employees were not hit as hard this year as when the board cut the wages of all workers last year a total of \$350,000,000. The cuts ranged from one to nine cents an hour for various classes of workers, while certain groups of semi-official and supervisory employees escaped the pruning knife entirely.

COAL OPERATORS AND UNION HEADS MEET

(By Associated Press)
Washington, July 1—President Harding in convening the conference of bituminous and anthracite coal operators and United Mine Workers officials at the White House today, to devise means of negotiating a settlement of the coal strike, advised that both parties arrive with reasonable promptness, at an understanding for "your mutual good and the country's common good."

The President declared this is no time for "militant note of radicalism," and the conference was desired to give and take under a sense of obligation to the public.

President Harding said that if an adjustment could not be reached, government aid would be available at a joint call of the bodies. The warning note expressed by the President in his admonition was to arrive as promptly as possible at an understanding.

FREE STATERS CLEAN OUT IRISH INSURGENTS

(By Associated Press)
Dublin, Ireland, July 1—The Provisional Free States government attempted today to clean out the insurgents near the Four Courts building, which was destroyed and is still burning. Railway communication was demolished. Eamon de Valera is reported to be leading the insurgents in Sackville street, near Four Courts.

PROSPECTS GOOD FOR JULY COURT

J. W. Creech reports that prospects for July court day are most favorable. Early Saturday morning about 2,000 cattle had come in. Most of these came from the mountains. Only a few are coming in from the county. All grades are represented. Mr. Creech thinks there will be about half as many cattle on the market this court as there were in May. The price will vary, but the average will be good, is his opinion.

The price for sheep will be about the same as last month, but there will be many more on the market. Saturday morning about 1,200 were reported at the Creech stock yards, with more coming.

It was too early for mules and horses to have arrived, but 200 hogs were in and prices will probably be 10c and 12c. There will be a large number of hogs on the market this court, according to Mr. Creech, and on the whole, prices will be similar to last month.

MRS. C. S. HOLTON DIES SUDDENLY

Mrs. Jennie McDowell Holton died at her home in West Main street, Richmond, early Saturday morning. She is survived by her husband, Dr. C. S. Holton, and two sisters, Mrs. David M. Sweets, of Louisville, and Mrs. Sallie McDowell Blanton, of Virginia.

Dr. Holton went down stairs to open the door for the iceman at 6:30 o'clock. When he returned he was surprised to find Mrs. Holton apparently still asleep. He touched her arm and found it cold. She had been dead several hours.

Mrs. Holton was the daughter of Major McDowell and Mrs. Bettie Breck McDowell, and granddaughter of the late Judge Daniel Breck, one of Richmond's most prominent citizens.

In 1891 Mrs. Holton was united in marriage to Dr. Charles S. Holton, who had recently come from Maysville, to practice his profession in Richmond.

Throughout her life Mrs. Holton was an active member of the Presbyterian church. She gave her time and talents to the choir, mission work and all active service until her health made it impossible to continue this work.

During the world war she did a great work for the Red Cross. Mrs. Holton, a member of one of Richmond's most prominent families, was a woman of brilliant attainments, charming personality and remarkable intellect.

Funeral arrangements will not be made until Saturday night after the arrival of her sister. Burial will take place in Maysville Monday. It is requested that there be no flowers.

BAND CONCERT MONDAY NIGHT

The weekly band concert, given by the American Legion band, will be on Monday night instead of Thursday night on account of Chautauqua which begins Wednesday.

The band is composed of ex-service boys, and is serving Richmond by entertaining its citizens with free open air concerts every Thursday night in the court house yard. This organization has a splendid band and gives most liberal programs. There is always a big crowd to hear the music. The program last Thursday night consisted of six numbers. One of the prettiest was a duet by Conductor James Henry Leeds and Chas. Stanifer, two of Richmond's best musicians.

Big Chief Entertains Crowds

Chief White Eagle and squaw have been the center of attraction in Richmond this week. Each night First street has been crowded with cars of passengers who gathered for the demonstration and free entertainment given by the Chief and his black-face comedian. He is distributing through the Madison Drug Company his wonderful Indian medicine and talking to a member of the Register staff Saturday morning, said he had never seen a city take to his medicine as Richmond has. They will remain in Richmond throughout the coming week and will hold the free entertainments each evening at 7:30, east of the courthouse on First street.

Tent Show Closes

The Heffner-Vinson Stock Co. who have played here during the week under the big tent, complete their engagement tonight and go to Ravenna to play next week under auspices of the L. & N. Band. They are sure of a big success, as this company is composed of ladies and gentlemen of genuine stage talent and a good clean show is offered. They have fulfilled all obligations and we wish them success. Tonight the closing play will be "Sunset Mine," a very pretty piece in 4 acts, and vaudeville. Everybody is invited to come and give them a good luck farewell until they return to some future date.

MANY GROWERS SIGN POOL CONTRACT

Says Field Agent Collins In Report to Directors of Burley Association

Lexington, Ky., July 1—Membership in the Burley Tobacco Growers' Co-operative Association has passed the 61,000 mark, as shown by the report of Assistant Chief of the Field Division William Collins to the board of directors Friday, and the reports of field workers of contracts not sent in but already signed.

Mr. Collins' figures showed 55,617 growers of burley tobacco signed in the campaign last fall and 4,894 additions since the campaign closed, making a total of 60,421. President and General Manager James C. Stone estimated that 1,000 contracts, signed but not yet sent in to Field Service headquarters, were in the hands of county chairmen of workers.

President Stone reported that the tobacco situation in West Virginia and the Ohio counties contiguous was favorable, Manager Clifton Rodes and his associates signing up the growers in that section at the rate of 160 to 175 a week.

Director J. H. Soulesley reported about 75 in the hands of workers in Fleming, Director C. L. Walters said that 70 had been signed in Shelby which had not yet been sent in. Director at Large Charles H. Woodmansee brought 25 new contracts from Clermont county, Ohio and Director T. S. Burnam, said that a number had been signed in Madison which had not been reported.

Director of Warehouses Ralph M. Barker reported that the pricing of green tobacco which had been air-dried was either finished or in progress at fifteen different points in the district and that the growers would benefit considerably from the increased value of the tobacco after it has been air-dried.

President Stone reported the sale of a consignment of those green tobaccos to one of the largest brokers in the United States for export purposes. He said that a number of representatives of the larger manufacturers had been in Lexington recently and had called at the offices, that their attitude appeared to be fair and friendly and that it was his opinion it would not be long before substantial sales could be announced.

Louisville, Ky., July 1—The Democratic District Committee will meet here Monday, July 10, to designate a candidate to fill the vacancy due to the death of John W. Ewings.

BLUE GRASS LEAGUERS MEET AT BOONESBORO

Arrangements have just been completed by the local American Legion post with Manager Valandingham, of the Winchester Blue Grass League team, to have Winchester and Mt. Sterling play their regular scheduled game at the big picnic celebration Tuesday at Boonesboro. This game will take the place of the one scheduled between Richmond and Berea and will draw ball fans from all over the state. The Legionnaires are sparing neither time nor money in arranging the biggest and best program ever given in this section and this regular Blue Grass League game is only one of the big features of the day's entertainment. The game will be called at 3 o'clock.

IDIOTS ARE NOW WARDS OF COUNTIES

(By Associated Press)
Frankfort, Ky., July 1—More than 2,000 mentally defective persons, scattered in every county in the state, at midnight last night became wards of the counties or of relatives instead of the state. At that hour the law appropriating \$75 a year from the state treasury became operative.

For more than half a century Kentucky has had what is known as the pauper idiot pension system whereby pauper idiots, who could not be accommodated at the state institute for the feeble-minded in Frankfort, or who were not in condition warranting their being sent to either of the three state hospitals, were partly maintained by the state. At the 1920 General Assembly it was agreed to enlarge the state's facilities for handling idiots at the institute here. Purchase of a colony farm was authorized and money for the purpose appropriated.

No provision was made, however, for buildings and the pension system was continued for two years. At the last session of the General Assembly economy was the watchword and no measure providing buildings was passed. The House of Representatives passed a bill continuing the pension system another two years, but it failed to pass the Senate and therefore did not become a law.

As a result of this failure the state cannot, after last night, pay any pensions to idiots. The only way they can be cared for is thru the county infirmaries or for relatives to take charge of them. The institute here is so crowded that, according to Superintendent Taylor, there is no chance for any one being admitted except thru the discharge of one and that latter instances are few and far between.

Call Made On State Banks

(By Associated Press)
Frankfort, Ky., July 1—The State Banking Department today issued a call for the condition of all state banks.

Million Sells Two Fine Mares

A party of gentlemen composed of John Paul, Ogden Crutcher and T. Elliott, motored from Latonia and spent Monday with B. B. Million. They came to look at two Great Britain yearlings.

While at Latonia last week Mr. Million sold his two good two-year-old race mares, Kentucky Smiles and Carman Lee, to Mr. Rankin. These mares were shipped to Canada where they will race this summer.

County School Board Meets

The Madison County School Board met Friday in County Superintendent B. F. Edwards' office. It was decided that the county schools would open July 17. They considered three contracts for rooms to be added to the school buildings at West Union, Watts and Bearwallow.

The teachers and their assignments for the county schools this year will be made some time next week.

MT. VERNON PAPER SAYS SENTENCE JUST

Signal Adds Its Protest Against
Clemency For McQueen Who
Killed "Uncle Ike" Coyle

Agitation for clemency for Steve McQueen, Rockcastle youth, sentenced to die in the electric chair for the murder of "Uncle Ike" Coyle, near Big Hill, seems to have subsided, following vigorous protests in newspapers where people were familiar with the crime. The Mt. Vernon Signal, in its last issue, goes extensively into the case and adds its protest to other papers which have insisted upon fulfillment of the jury's verdict, as eminently just and deserving of no mitigation. What the Signal says will be read with interest as Mr. Coyle was well known in Madison county. The Signal said:

Much ado is being made over the sentencing of Stephen McQueen to the electric chair at the May term of the Rockcastle circuit court. McQueen having made his escape from the jail in Mt. Vernon before his trial, was for safe keeping, after conviction, transferred, along with two other convicted men, to the jail in Danville, where some of the good people have become very much excited about his case. Several of our neighboring papers have taken up the cudgels in defense of Rockcastle county's criminals, for which we thank them. There seems to be an impression in Danville that the young man may have been the victim of the "feud spirit." We would say in regard to this that while we have had more than our share of homicides in the past 25 years, not one of them could be by any stretch of imagination be classed as the result of any feud. The chief factor in all the cases of homicide that have occurred in our county for the past decade, is whisky, and we feel that with the moonshiner and bootlegger removed, the number of homicides would soon be nil. Young McQueen from facts brought out in the trial was engaged in making and selling moonshine whisky and the chief motive for the killing of an old, crippled and defenseless man was to stop him from reporting that fact to the authorities, and in the confession which McQueen and his partner in crime made, they said "we were drinking and got drunk" and then went and called the old man to his door and shot him down in cold blood.

Then it is urged that because of the boy's lack of education the sentence should be commuted to life imprisonment. We admit the lack of education is a serious drawback, but we also can cite any number of young men who are among our most substantial and law abiding citizens, who we doubt have as much education as young McQueen, and we know there are hundreds and hundreds of boys working their way thru Berea College, that excellent institution of learning which is not more than eight or ten miles from young McQueen's home, who have had no better opportunity than did he, but they made their opportunities and are making men of themselves instead of moonshining, bootlegging and murdering and then whining because of their lack of chance. If Mr. McQueen were the only one to be considered, we would unhesitatingly recommend that the death sentence be commuted to life imprisonment, in the hope that he might reform, but we all know that in nine cases out of ten life imprisonment means something like eight years in the penitentiary, then the criminal is paroled (if he is not pardoned before that) and turned loose to permit other crimes, and then we are sadly in need of something that will act as a deterrent on the young pistol toter of this county who gets filled up on moonshine and kills his fellowman. The people of our county realize this, hence the juries who do their duty; but it is very discouraging to these men who lay aside all sentiment in regard to inflicting the death penalty and we know it must be a hard thing to do and do their duty, to have their work undone by sentimentality, who do not stop to think of effect their action is having.

"These county organizations, however, are absolutely loyal and have promised to work their respective counties again just as soon as this rush of farm work is over. Consequently, it is expected that within a few weeks the Association will be materially strengthened in the territories that are already well signed up."

"In West Virginia a vigorous campaign is being conducted under the leadership of Clifton Rhodes, and in the face of deter-

mined opposition by the warehouse interests there the growers of that state are rapidly falling in line. In the smaller producing counties of Kentucky, Ohio, Indiana and Tennessee where little effort was made last year, the work is being pushed now and will be continued throughout the summer."

"As a result of all these efforts we confidently expect to increase our membership to 75,000 by the time for the delivery of the growing crop. In order to do this,

however, it will be necessary to have the co-operation of our membership and some assistance from them in the way of soliciting contracts from their neighbors who as yet are on the outside."

"The importance of signing up these growers can not be too strongly emphasized, for everyone who sells his crop independently is a constant menace to the organization and a stumbling block in the path leading to the general prosperity and high ideals

for which the association was formed. Although we are now in a very strong position in this respect, with control of a large percentage of the production of the burley tobacco, this percentage should be materially increased. This increase is entirely possible, for there is an excellent feeling all over the district toward the association and a willingness on the part of most of the outsiders to sign up, but they are waiting to be solicited."

"This work can not be done by

a few but if, in each county, the members will support their county chairman and help to arouse a little of the enthusiasm that was everywhere manifested last fall each county can be 'cleaned up' in short order and with comparatively little effort and time from the individual grower."

"We urge this support from the members of the association and request each one now to sign up his neighbor who may be on the outside, without waiting for a drive for members to be started."

Exports and Prosperity

When the great war began, Europe was taking 63 per cent of the annual exports of the United States, nearly 55 per cent of what Canada sold outside her borders and 73 per cent of South America's exports, 90 per cent of Africa's and 46 per cent of Asia's. The islands of the sea sent her 77 per cent of what they had to sell.

Europe was the world's best customer then, for manufactured goods and raw materials and by far the best we had. The continent took 44 per cent of our exported manufactures, 60 per cent of the agricultural machinery that left the country, 72 per cent of the cash registers and typewriters, 46 per cent of the sewing machines, 62 per cent of the adding machines and 32 per cent of all other machinery. The volume of these exports made America prosperous and made possible those standards of living which we have been proud to call American.

Today Europe is not buying in such volume, for she lacks both the cash and the credit. Her home markets, and those of South America, Asia and Africa, are not absorbing what she can

produce and American tariff makers seem determined to close this one also.

Business improves here, for the United States is essentially sound agriculturally, industrially and commercially; but the improvement we note today serves only to indicate what we might reasonably expect were the war-torn nations overseas truly on their feet again. As Gov. Cox says, our prosperity, indeed, is dependent upon theirs.

It sounds like altruism, but it is only fundamental business sense.

GROWERS SIGN CONTRACTS (Continued from Page 1)

Cashier of a bank at Greensburg, the growers of that county are signing the contract and there is some enthusiasm over the gains for the movement in Green. Workers believe the county will sign up 90 per cent of its acreage before it has finished its campaign.

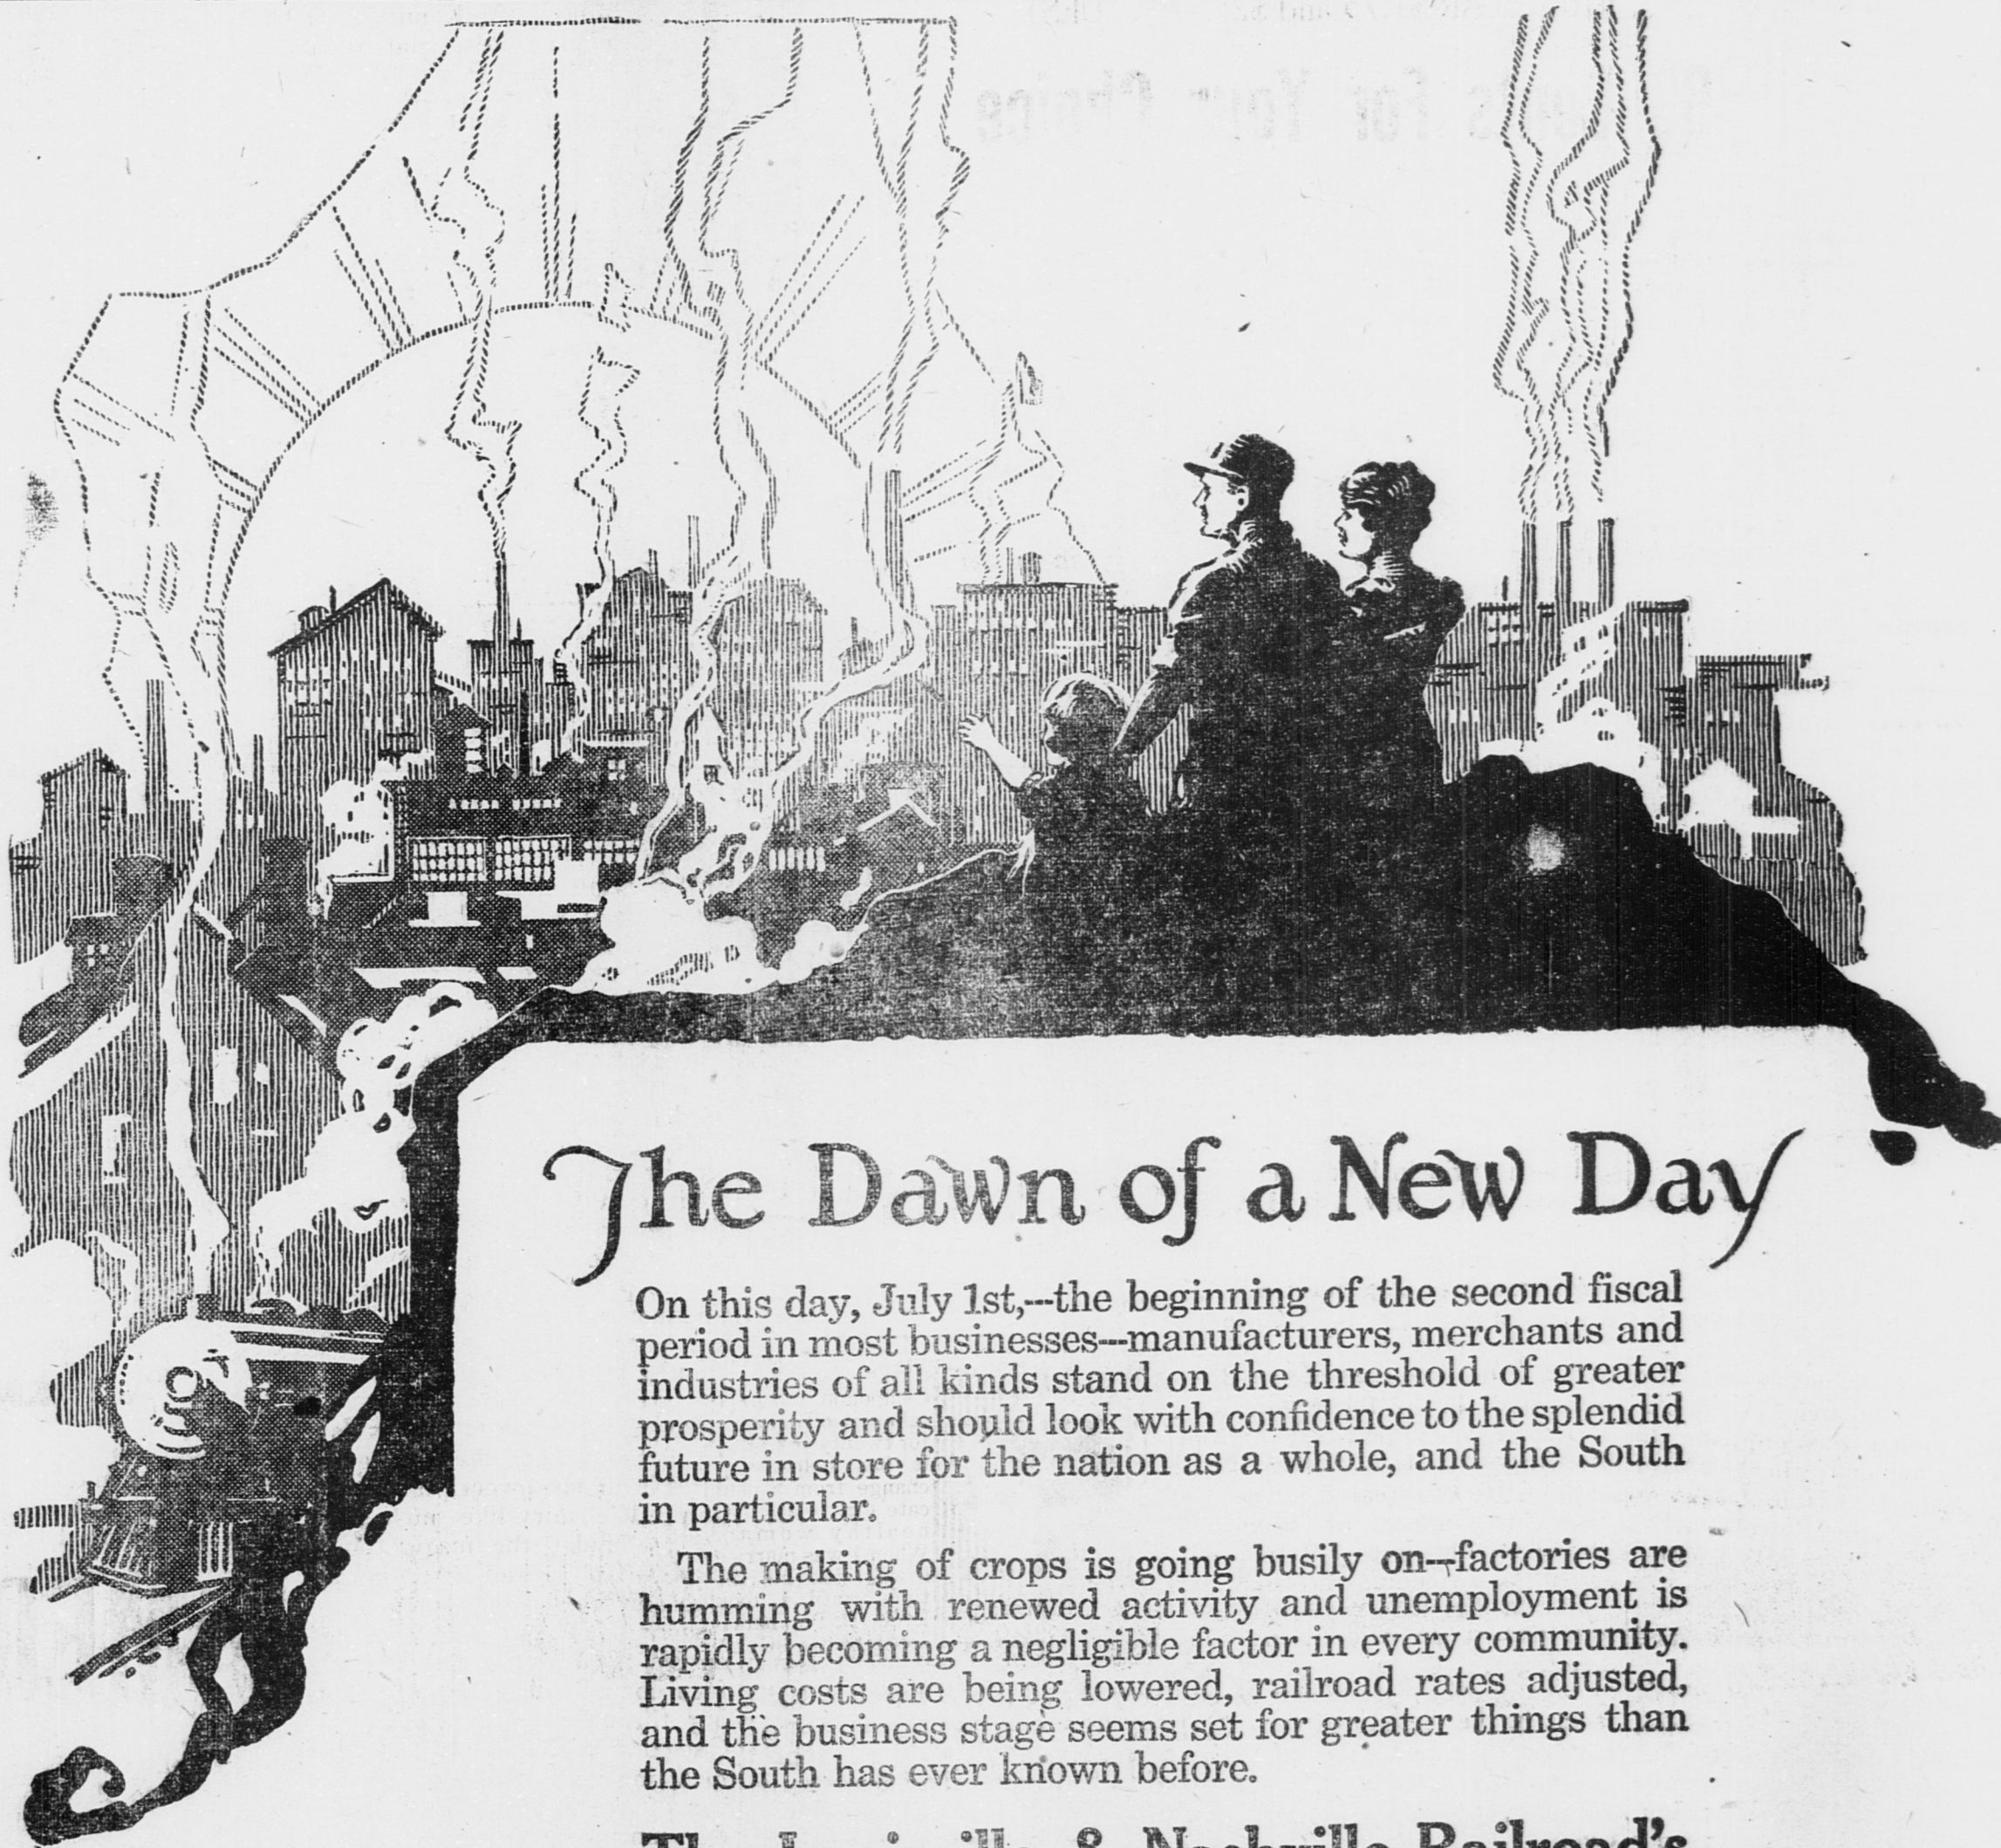

Judge Robert W. Bingham, director at large for Kentucky, reported that the sign-up in Western Kentucky and Tennessee districts of the dark belt is progressing, that many growers are signing and that the bankers and business men are lining up for the formation of the association, as they did in the burley district. Judge Bingham had just returned from a speaking tour of Western Kentucky and Tennessee and he said the keenest interest was being manifested in the co-operative movement in that section.

The board adopted a motion by Director Dawson Chambers authorizing the president to appoint a committee to look into the work of the national board of farm organizations at Washington, with a view to keeping in touch with national legislation that might affect the interests of the burley association.

Development of an export trade is one of the possibilities of the near future, in connection with the national department of commerce. World exports and imports, port warehousing facilities, customs duties, foreign manufacturers and probable future development are to be studied. President Stone brought the matter to the attention of the board, following a recent visit of an official of the department of commerce to Lexington and the matter was left in the hands of the president and executive committee to work out.

The report of Assistant Chief Collins of the Field Service Division, after stating the number of members and the gain of 4,804, representing about 10,500,000 pounds, continued as follows:

"The new members added a total of 10,611 acres or a production in excess of 10,500,000 pounds. The new contracts signed have been secured in spite of the fact that only in a very few counties have local organizations conducted a systematic campaign for new members since last fall. Such a campaign was planned for the week following May 20, when nearly \$10,000,000 was paid to members of the association, and in several counties some good work was done, but in most places conditions were such as to make a systematic campaign impossible at that time. County chairmen and their workers found themselves oppressed with farm work that the business of contract soliciting had to be neg-

The Dawn of a New Day

On this day, July 1st,—the beginning of the second fiscal period in most businesses—manufacturers, merchants and industries of all kinds stand on the threshold of greater prosperity and should look with confidence to the splendid future in store for the nation as a whole, and the South in particular.

The making of crops is going busily on—factories are humming with renewed activity and unemployment is rapidly becoming a negligible factor in every community. Living costs are being lowered, railroad rates adjusted, and the business stage seems set for greater things than the South has ever known before.

The Louisville & Nashville Railroad's Part In The Development of This Territory

is an important one—and will be told in a series of weekly bulletins to appear in this newspaper. These bulletins will treat of the operation of railroads in general and the Louisville & Nashville Railroad in particular.

They will be informative, interesting, and contain nothing but facts; it being their purpose to give to the general public a clearer understanding of the problems which confront the managements of all railroads, and a somewhat keener appreciation of the importance of rail transportation in the general work of community building.

The Reader's Attention

is directed to this series with the suggestion that if their reading prompts a desire for further information, not contained in these bulletins, a request be addressed to the company's general offices in Louisville, Kentucky.

Combs—Baxter

Numerous friends of the groom here had a pleasant surprise this week in the announcement of the marriage of Miss Sallie Combs, of Paintsville, and Mr. Tom Baxter, of this city, which occurred at the home of the bride Thursday. Rev. D. H. Matherly, formerly of this city, now pastor of the Christian church at Catlettsburg, performed the ceremony. Miss Combs has made numerous friends in Richmond, having attended the Normal School for several terms. The groom is one of the proprietors of the Kennadrich restaurant. He was reared in the county and numbers his friends by his acquaintances. Immediately after the wedding the couple left for an extended eastern trip and will return to Richmond next week, where they will receive the congratulations of friends.

Miscellaneous Shower

Miss Mossie Allman was host to a miscellaneous shower Thursday afternoon at her home in South Collins street, honoring Mrs. Charles H. Gibson, a recent bride. Punch was served during the hours, Miss Kate Brown presiding. Others assisting the hostess were Misses Margaret Douglas, Tevis James, Mrs. Con-

ley Congleton, Miss Carrie Allman. Many useful and beautiful gifts were showered upon the happy bride. Among the guests were Mrs. A. M. Davison, the Misses Davison, Mesdames Nan-nie McBroom, Mrs. Farris, John Arnold, Joseph Arnold, William

A FRIEND IN NEED A FRIEND INDEED

Writes Mrs. Hardee Regarding Lydia E. Pinkham's Vegetable Compound

Los Angeles, Calif. — "I must tell you that I am a true friend to Lydia E. Pinkham's Vegetable Compound. I have taken it off and on for twenty years and it has helped me change from a delicate girl to a stout, healthy woman. When I was married I was sick all the time until I took Lydia E. Pinkham's Vegetable Compound. I was in bed much of my time with pains and had to have the doctor every month. One day I found a little book in my yard in Guthrie, Oklahoma, and I read it through and got the medicine—Lydia E. Pinkham's Vegetable Compound—and took eight bottles and used the Sanative Wash. I at once began to get stronger. I have got many women to take it, just by telling them what it has done for me. I have a young sister whom it has helped in the same way it helped me. I want you to know that I am a 'friend indeed,' for you were a 'friend in need.'"
—Mrs. GEORGE HARDEE, 1043 Byram St., Los Angeles, California.
Let Lydia E. Pinkham's Vegetable Compound be a "friend indeed" to you.

Beautiful Tea for Mrs. Pickels

More than a hundred friends responded to Mrs. C. E. Smoot's invitation for Thursday afternoon from four to six at her attractive home in High street. Mrs. T. H. Pickels, of Baltimore, was honor guest, receiving with the host. The floral decorations of gladiolas, sweet peas and daisies, the fairy-like music of the harp under the magic touch of Miss Telford and the abounding hospitality of this home all combined to make this a most beautiful occasion. Those who assisted in entertaining were Misses Emma Oldham and Dollie Pickels at the punch bowl; Mrs. John Arnold, Mrs. S. J. McGaughey, Mrs. W. P. Millard and Miss Elizabeth Smoot in the parlors, and Misses Nannie Evans, Mary Katherine Jasper and Elizabeth Hume in the dining room. The out-of-town guests, besides Mrs. Pickels, were: Mrs. Rice Woods, Paint Lick; Mrs. Ann Carlisle, Columbus, Ohio; Mrs. Price Witt, Cincinnati; Mrs. Evan McCord, Washington; Mrs. Harry V. Roberts, Chicago; Mrs. Jeff Morgan, Louisville; Mrs. Dan Chennault, Lexington; Mrs. Harry Wilson, Irvine; Mrs. Henry Baugh, Nashville.

Misses Alice and Lena Duerson and Mrs. Gordon Parrish had as their guests Saturday Mr. and Mrs. H. L. Cornelison, of Cleveland, Ohio, Mrs. J. W. Bailey, Wheelwright, Ky., and Miss Mildred Gillespie, of North Middletown.

Mrs. R. E. Turley is in Lexington for a week end visit to her mother, Mrs. R. F. Spears.

Mrs. Neale Bennett was gladly welcomed home this week, having spent the past few years at Asheville, North Carolina.

Mrs. Cynda Karr is spending a few days at Whittle Springs near Knoxville.

DR. WHITE EAGLE CATARRH FIRST STAGE OF CONSUMPTION

CATARRHAL POISON SPREADS AT NIGHT

Poisonous Discharge Finds Way To Stomach During Sleeping Hours, Seriously Affecting Digestive Organs.

Nearly all specialists agree that an ordinary case of nasal catarrh will do more to impair the general health of the victim in eight sleeping hours than in twenty-four awake.

The reason assigned is that the poisonous discharge that is constantly spit up by the victim through the day drops into the throat and finds its way to the stomach during the sleeping hours, and, being of an extreme poisonous nature, immediately "infects" the mucous lining of the digestive organs, causing loss of appetite, impaired digestion, dyspepsia, and ultimately catarrh of the stomach.

The first symptoms, such as clogged head, necessity of breathing through the mouth, foul, sickening breath, constant desire to "haw" and spit up white or yellowish, stringy phlegm, dull headache between the eyes, and a dryness in the mouth and gagging sensation in the morning, should be sufficient warning to those who care for health, and should not go unheeded.

Permanent and lasting relief can be obtained by using White Eagle's Indian Oil with one of his atomizers that you can buy at the Madison Drug Company. Use quite often each day.

After this disease has reached the stomach you couldn't take a better medicine than the Indian Sennatoe. This will remove all impurities from the stomach and bowels and remove catarrh entirely from your system. Indian Sennatoe is sold at the Madison Drug Company. Guaranteed to help or cure or money back. Start today. Price \$1.00.

Mrs. James Carlisle, of Columbus, Ohio, Mrs. Geoffrey Morgan, of Louisville, and Mrs. Rice Woods, of Paint Lick, were luncheon guests of Mrs. Henry White Saturday.

Mrs. F. P. Frisbie, of Lancaster, was a recent visitor in Richmond.

Sonny Harper and Jack Williams, of Frankfort, are guests of William and Christopher Crutcher for the week end.

Miss Sarah Hall Smith and Miss Pearl Schofield, of Shelby county, have entered the Normal

Base Ball Goods

How about a new Fielder's Glove, a Catcher's Mitt, or a new Bat to help you play a better game? Whatever you need you'll find here, the kind that would please a big league. Special service to teams.

SISLER AND HORNSBY LEAD MAJOR LEAGUES

(By Associated Press)

Chicago, July 1—Lawton Witt, Yankee outfielder, today is on the heels of the batting leaders of the American League with the prospects of becoming a dangerous contender for first place honors. In seventh place a week ago, Witt connected with ten hits in his last six games and batted his way to fourth position with an average of .371, compared to .365 for the previous week.

George Sisler, the St. Louis Browns' star, continues to lead the race with an average of .429 compared with .434 last week. Harry Heilmann, of Detroit, displaced Tris Speaker of Cleveland for runner up honors with an average of .381. Speaker is three points ahead of Witt, his average being .374. These figures include games of Wednesday.

Sisler continues to add to his records of total runs scored, hits and total bases, having scored 68 times and made 12 hits for a total of 182 bases. His base stealing performance of 26 remains unchanged.

Kenneth Williams, a teammate who is leading both leagues for home run honors, smashed out another circuit drive, bringing his total for the season to 19. He also has improved in batting, his mark being .305 as compared with .295 a week ago.

Other leading batters for 45 or more games: O'Neill, Cleveland, .368; Cobb, Detroit, .357; Blue, Detroit, .353; Ed Miller, Philadelphia, .352; Schang, New York, .350; Bassler, Detroit, .349; Hooper, Chicago, .326; McManis, St. Louis, .325.

Lawrence "Hack" Miller, the strong man of the Chicago Nationals and former slugger of the Pacific Coast League, has started a climb among the national league batters that is attracting considerable attention. Miller slammed out 22 hits in his last 18 games. This boosted his average from .330 to .358 and landed him in third place among the players who have participated in 45 or more games, according to figures which include games of Wednesday.

Rogers Hornsby, of St. Louis, continues to top the batters with an average of .393. He has run his string of home runs to 16, which is far in front of his rivals. Hank Gowdy, of Boston, is runner up with a mark of .383.

Max Carey, the fleetfooted outfielder of the Pittsburgh Pirates, stole 3 bases during the past week, giving him a string of 17 for the season. His speed was in a great way responsible for catching up to J. Johnston, of Brooklyn, for the honors in runs scored. Each has registered 58 times.

Other leading batters for 45 or more games: Bigbee, Philadelphia, .356; Daubert, Cincinnati, .354; Kelly, New York, .351; J. Smith, St. Louis, .350; Baneroff, New York, .343; Grimes, Chicago, .342; Duncan, Cincinnati, .340.

With an average of .412, Myatt of Milwaukee, continues to set the pace for the batters of the American Association, according to figures which include games of Wednesday. Brown, of Indianapolis, is second with .383 and Kirke, of Louisville, third with .372.

"Reb" Russell, of Minneapolis,

who has been playing remarkable ball this year, tied the performance of Bunny Brief of Kansas City, in slamming out fourteen homers. Krueger, of Indianapolis, and Becker, of Kansas City, have connected with 11.

In base stealing, Haas, of St. Paul, Mathews, of Milwaukee, and Murphy, of Columbus, are tied with 13 apiece. Baird, of Indianapolis, and Christenson, of St. Paul, are next in the list with 12.

Other leading batters for 45 or more games: Lamar, Toledo, .370; Lear, Milwaukee, .358; Krueger, Indianapolis, .358; Hendryx, St. Paul, .356; Scott, Kansas City, .350; Becker, Kansas City, .349; Mayer, Minneapolis, .348; Jourdan, Minneapolis, .343; Russell, Minneapolis, .343.

GOLDEN GATE PARK PRODUCES PLAYERS

(By Associated Press)

San Francisco, July 1—The 12-acre grass field in San Francisco's Golden Gate Park from which came Willie Kamm, infielder, recently sold for \$100,000 by the San Francisco Coast League club to the Chicago Americans, has produced scores of other well known professional baseball players. On its wide expanse ten or more games frequently are in progress, and from it are recruited keen youngsters for semi-pro teams. If they make good with the semi-pros, the boys may be given a trial with the Coast league, and thence many of them go to the major leagues.

"I suppose no 'sandlot' in the country has produced more good players than Golden Gate Park," remarked Charlie Baum, when he heard that Kamm was to play with the White Sox next season. Baum, himself a product of the park, quit baseball last year after pitching 20 years, and most of that time in the Coast league.

"Right now a bunch of the Golden Gate Park boys are up in the majors keeping their teams in front in the pennant race," Baum continued. "Walter Miles is burning over strikes for Cleveland and Doran is playing the outfield for the same club. Bert Cole and Carl Hollings are pitching for Detroit and Dutch Reuther is doing the same for the Brooklyn Nationals.

"Harry Heilmann, who led the American league in batting last season, is near the top again this year. He is in Detroit's outfield. The Cincinnati Nationals have Louis Branscum, Sam Rice, Babe Pinelli and Jimmie Caveney in their infield. George Kelly is in the outer garden for the New York Yankees and Bill Cunningham is catching some hard ones off the fence for the Giants.
